

RPM 5 Carbon

Manual turntable

- Precision belt drive principle using synchronous motor
- Ultra-precision DC-driven AC generator motor power
- Inverted platter bearing with ceramic ball
- Acoustical inert acrylic platter
- 9" cc EVO tonearm made from carbon
- Counterweight with TPE damping
- Adjustable aluminium tip-toe feet
- Available with or without Ortofon Quintet red cartridge
- 3 high-gloss colours (black, red, white)
- Lid available as an option

Speed	33, 45 (manual speed change)
Drive principle	belt drive
Platter	300mm acrylic

Ingenious styling for audiophile listeners

RPM 5 Carbon utilises a radical concept with a lot of innovations, that originate from its big brother *RPM 9 Carbon*: A low resonance chassis holds a newly designed inverted platter bearing with ceramic ball for further reduced rumble. The acoustically inert platter is made from acrylic. An outboard 15V AC motor is smoothly driven using an ultra-precision AC generator with DC power supply for further enhanced speed stability. The class 9" cc *Evo* tonearm, which is made from carbon fibre is suitable for any high-quality MM or MC cartridge. A TPE-damped counterweight eliminates unwanted resonances. All ingredients add up to a miracle in sound for the price. Its ultra-stylish look is available in 3 exclusive high-gloss finish versions.
