

Got the hang of it

Complete with MM cartridge
Ortofon 2M Silver
3 different colour options
2 year warranty

www.project-audio.com

RPM 3 Carbon shows up with an impressive no-frills appearance. With Slim, fast, accurate presentation it dominates with matching straightforwardness. Playback shows present and detailed quality. Once again the chosen cartridge is a good solution. And finally the special price for this coherent package is a typical offering of this austrian brand.

STEREO-TEST

OUTSTANDING	

RPM 3 Carbon deserves a few hours of running-in and then is able to astonish with firm solidity in sound.

...

The RPM3 Carbon was not blown away with loud, dense and tight music and also did not loose insight and tension with more mellow down-tempo tunes.

...

This filigree-looking turntable shows neutrality and stringent Play as its strong virtues. It only will offer quaint cozy, rounded analog sound, when the vinyls exactly sound like that.

...

No doubt about it, with this RPM3 Carbon Pro-Ject once again proves, that they got the hang of it.
