

## NEXT OP1 TV Floor Stand

Article number (SKU) 8743232  
Colour LIGHT OAK

### Key benefits

- Stylishly conceals all your cables
- Lock your TV securely in place

The groundbreaking OP1 floor stand from Vogel's reinterprets the way in which television integrates with contemporary living. This simple yet stunning Nordic design fuses nature with technology to bring the television back into the heart of the room. Its elegant, clean lines emphasise the authenticity of wood, producing a stand that will enrich your living environment.

### Freeing to stand out, wherever

Vogel's OP1 is carefully crafted from premium oak, selected for the fineness of its grain and enduring beauty. The design means the television is once again good looking enough to be the focal point of the room and, being freestanding, it can be placed exactly where it needs to be. It pays homage to the true traditions of carpentry. Producing a floor stand that performs as beautifully as it looks. The extreme stability of the tripod base means that even a large flat screen 70 inch TV can be supported safely and securely. Solid RVS bars secure the TV to the stand, allowing the OP1 to hold loads of up to 40 kg with ease.

### OPHANG - The days of hiding your console are over

The OP1 is produced with great attention to detail to ensure nothing is overlooked. For those who want to attach a games console to the TV, without spoiling the clean lines of the OP1 with trailing cables, there is the OPHANG accessory. Crafted in leather and steel with a delightfully feel, this accessory keeps the console and its cables out of sight while allowing easy access. Even the power cables are unseen, being routed to the floor through a cleverly concealed channel in the back leg of the tripod.

Bringing a new perspective to the concept of television as a design object, the OP1 offers a distinctive symmetry that brings beauty to the very latest in technology.
